EXPERIENCES

2016

Interview with sketchfab

Art Spotlight: The Plunge

In Art Spotlight, we invite Sketchfab artists to talk about one of their designs.

Background

My name is Ali Rahimi Shahmirzadi and I'm a freelance CG artist from Iran. You can find out more about my projects on my [website](#). I have studied Stage Designing of Cinematography and I started my journey in the realm of CG with 3DSMAX 2. After one year I switched my platform to Maya, and since then Maya has been my favorite and foremost platform to work on all of my projects.

My main focus is on Realtime Content Creation with Quest3D & Unreal Engine 4. In the past, however, I've also had a lot of experience working with some of the advertisement agencies in producing commercials.
